Profile

First, I believe that this nation should commit itself to achieving the goal, before this decade is out, of landing a man on the moon and returning him safely to the earth. No single space project in this period will be more impressive to mankind, or more important for the long-range exploration of space; and none will be so difficult or expensive to accomplish.

One way to do

this could be to

use array_reduce

and pass an

empty array as

the start value.

Then in the

callback

good methods

Skills

php ,laravel ,js

Projects
