PROFILE

○ Around 8+ years of professional experience in the Information Technology industry
○ Expertise in Software Development
○ Strong Programming Skills in designing and development of applications using JavaScript, TypeScript, React Js, Redux, Ionic, Angular, PrimeNG, Bootstrap, Material UI, Flex, UI/UX Designs, Figma, Adobe XD, HTML5, CSS3, Node JS, Express JS,Mongo DB.
○ Experience in developing Web Services – RESTful
○ Good understand of Data Structures and Algorithms
○ Strong experience in all the phases of Software Development Life Cycle (SDLC)
○ Good understanding of Agile Methodologies

EXPERIENCE

SENIOR SOFTWARE ENGINEER
Pro
Dec 2022 - Jun2022

○ athi

○ fdhdfhj

TECHNICAL LEAD
Hatshcher
May 2022 - Nov 2022
SENIOR SOFTWARE ENGINEER
Akamai Technologies
Aug 2019 - March 2020
SOFTWARE DEVELOPER
Mobile Programming LLC
Jun 2016 - Jan 2017

SKILLS

- MS SQL
- Server 2005
- MySQL
- MS Access
- Indexdb
- React
- Ionic
- Angular2+
- PrimeNG
- Cordova
- Capacitor
- Redux
- AngularJS
- JavaScript
- jQuery
- AJAX
- Node JS
- Express JS HTML
- CSS
- Bootstrap
- C#
- ASP.NET
- Microsoft Visual Studio
- UI/UX Designs Figma
- Adobe XD

PROJECTS

PROVAB
Dec 2022- Jun 2023

Description

- amal

Roles & Responsibilities

- judge

LOTTO SOCIAL
May 2022-Nov 2022

Description

- akhil

Roles & Responsibilities

- Sprint planning, story pointing, design discussion.
- Team management.
- Designing, developing, and maintaining Node Js application
- Figma designs and converting them into pixel perfect UI with React and Angular.
- Collaborated with development teams to design and implement continuous integration and delivery (CI/CD) pipelines using AWS Code Pipeline and Azure DevOps.
- Design and development of reusable custom components
- Release documentation
- Angular Js
- TypeScript
- Node Js
- HTML
- CSS
- AWS
- Dev Express JS
- MongoDB

MINDCREEK
Dec 2021-April 2022

Description

- weywey

Roles & Responsibilities

- Utilized Express.js, a popular Node.js framework, to streamline the development of web applications and APIs.
- Design and build APIs that expose back-end functionality, including business logic and data access.
- Utilized TypeScript's static typing features to enhance code quality
- Help back-end developers with coding and troubleshooting.
- Lead Architecture, Design and Technical Roadmap of cloud scale Software Platforms that support a complex third- party integration.
- Node Js
- Typescript
- mongoDB
- UX&UI
- CSS
- Html
- Angular 14
- Javascript
- MS SQL server
- responsive design
- HTML5
- Git

FORK FREIGHT
Sep 2020-Aug 2021

Description

- ajay

Roles & Responsibilities

- Converting Figma design into modern UI design with React and TypeScript.
- Involved in design development by using MVC architecture
- Monitored and optimized cloud resources for performance and cost, leveraging AWS CloudWatch, Azure Monitor, and cost management tools.
- Integrated with back-end APIs and services, utilizing Angular's HttpClient module to perform HTTP requests and handle responses.
- Developed complete front end for Admin portal
- Proper documentation for every functionality
- React
- Typescript 3.3
- HTML
- CSS,Redux
- Node JS
- GraphQL
- Kendo UI

MARKET PLACE & BUY AKAMAI
Jan 2019-Aug 2020

Description

- it is a system for their Sales rep and Clients.
- One system for client as well as salespeople.
- Minimum human intervention
- Easy on boarding
- Easy way to configure products
- Complete support for legacy systems
- Micro service-based design

Roles & Responsibilities

- Gathering and Understanding requirements
- Developed and maintained server-side applications using Node.js
- Implemented Forms and their Validations
- Creating and managing RESTful APIs with AWS API Gateway
- Utilized JavaScript frameworks/libraries such as Angular to build scalable and maintainable user interfaces.
- Written high performance Angular components.
- End to end testing with Jasmine
- AWS
- Angular Js
- MongoDB
- TypeScript
- HTML5
- CSS3
- Node JS

- Express Js

NEW ACCOUNT OPENING FOR A LEADING INVESTMENT BANK
Apr 2018-Nov 2019

Description

- It is their internal system that their Financial advisiors used for new client onboarding which helps them to automate the onboarding process for their clients.
- One system to cater all type of account opening process.
- Helps to automate the stuff and require minimal human intervention.
- All guidelines/required details are now at a single location
- Generating reports based on the different criteria

Roles & Responsibilities

- Gathering and Understanding requirements
- Designing, developing, and maintaining Node Js applications using Javascript and Its framework.
- Involved in design development by using MVC architecture
- Actively participated in bug fixing and maintenance activities, troubleshooting and resolving issues within Kendo UI implementations.
- Implemented Forms and their Validations
- Writen Angular components, directives and services.

LOGISTICS APPLICATION
Dec 2017-March 2018

Description

- Crane WorldWide is a Full-Service Air,Ocean, Trucking, Customer Brokerage & Logistics Company. Our system provides one transparent place for clients,employees,vendors and management teams to manage the information they need to be successful.

Roles & Responsibilities

- Design architecture for UI development using Angular.
- Conducted thorough testing and debugging of TypeScript code to identify and fix issues, ensuring the stability and reliability of the application.
- Development of modules using Angular and HTML5
- Optimized application performance by implementing best practices for network requests, rendering, and handling large datasets within Kendo UI.
- Developed complete front-end module for Admin.
- Created reusable custom table with custom sorting, paging and searching with AJAX feature
- Angular
- TypeScript
- Node JS
- Express JS
- Stored Procedure
- My Sql
- Kendo UI
- HTML5
- CSS

FLEET APPLICATION

Jul 2017-Dec 2017

Description

○ Minda I Connect's diverse features provide convenient access to important information about your vehicles and other services.
○ The Connected Car features, enabled on the Minda Connect platform will give you meaningful information about your car. Even when you're not with it & offers enhanced safety and sense of security.
○ Some of the feature are: Vehicle Health Monitoring
○ Locate Car
○ Trip Analysis
○ Impact Alert
○ Share your Location
○ Periodic Service Alert
○ My Document
○ Car Calender
○ Service Booking
○ Dealer & Pump Location.

Roles & Responsibilities

○ Developed complete front end module for Trip Analysis.
○ integrated and interacted with databases MySQL using Node.js, facilitating data storage and retrieval operations.
○ Utilized Angular CLI (Command Line Interface) to scaffold, build, and deploy Angular projects efficiently.
○ Worked over wire framing of screens and designs.
○ Developing serverless applications using AWS Lambda and related services
○ Implemented Google apis and Here Map api with live tracking.
○ Angular Js
○ JavaScript,
○ Node JS
○ Express JS
○ AWS
○ MongoDB
○ HTML5
○ CSS3

YOUFOOT PORTAL

Mar 2016-Jul 2017

Description

○ Youfoot is a sports community portal. Using this , fans can follow their favorite players and users can create their own tournaments also.

Roles & Responsibilities

○ Mirage modules from Angular.JS to Angular.

- Implemented user authentication and authorization systems using Node.js, ensuring secure access to application resources.
- Implemented statistics of team and player with the help of Chart JS and D3.JS.
- Created reusable virtual playground with the help of SVG and Angular Directive.
- Implementation of Design both in web and mobile apps .
- Integrate word press and Angular.
- Angular
- JavaScript
- Node JS
- HTML5
- CSS3
- MongoD

GOKRAZEE PORTAL
Feb 2015-Feb 2016

Description

- GoKrazee portal is an online game portal on which users can set challenges

Roles & Responsibilities

- Understood and analyzed the client requirements
- Utilized Angular Material or other UI component libraries to create visually appealing and consistent user interfaces
- Involved in client communication for day-to-day priorities.
- Worked over wire framing of screens and designs.
- Implemented Api for Challenge Module
- Worked on better utilization and improvement in the performance of the application.
- JavaScript
- jQuery
- Html5
- CSS3
- React
- Redux
- MySQL
- MongoDB

EDUCATION

BSC SCIENCE
Shivaji university,
2013-2016
